Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2015/16 educational progress for the Jack Reque Alternative School. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, accountability and teacher quality. If you have any questions about the AER, please contact John Shiner for assistance. The AER is available for you to review electronically by visiting the following web site <http://www.manistiqueschools.org/Home/AER/AER.htm> or you may review a copy in the principal's office at your child's school.

The students at the Jack Reque Alternative School have a diverse choice of educational opportunities. All students at this alternative program have full access to the vocational education offerings at the Manistique Middle and High School. Finally, Jack Reque Alternative program offers small class room settings with low student to teacher ratios. Data disaggregation indicates that the group in need of the most academic support is economically disadvantaged males.

PROCESS FOR ASSIGNING PUPILS TO THE SCHOOL

The Manistique Middle and High School is the sole LEA within the Manistique Area School district. When students move into our district, parents/guardians complete an enrollment packet. Once the enrollment information has been received by school officials, the counselor/principal work with student/family to decide on courses that best suit the individual needs of the student. Additional application materials as well as a committee screening takes place for each individual attending this alternative program.

THE STATUS OF THE 3-5 YEAR SCHOOL IMPROVEMENT PLAN

The faculty and staff of the Jack Reque Alterantive School are continuously revising and updating our School Improvement Plan. Our current plan expires in 2020.

Specialized School

The Jack Reque Alternative School is a specialized school that serves the Manistique Middle and High School.

IDENTIFY HOW TO ACCESS A COPY OF THE CORE CURRICULUM, A DESCRIPTION OF ITS IMPLEMENTATION AND AN EXPLANATION OF THE VARIANCES FROM THE STATE'S MODEL
